Midlands Engine Digital Steering Group

Purpose:

•   An active working group to bring forward positive action in partnership.

•   To identify areas for collective action which enable shifts in digital connectivity and capability across the Midlands Engine region, at pace.

•   To work adding value, without duplication and complementary to the work of partner organisations.

•   To develop and be responsible for driving forward a regional action plan for digital.

Membership is open to those across the Midlands Engine with an interest in accelerating digital connectivity, digital skills and digitalisation of business and comprises members who can commit time, skills and knowledge to enable delivery of group outputs.
