The Midlands has delivered so much for the UK. Our region is the birthplace of the Industrial Revolution; the largest regional economy outside London and home to almost 11 million people. But over time we have been consistently overlooked and undervalued – meaning our true economic potential is not being realised. The Midlands Engine partnership works to drive positive change and growth, aligning efforts and identifying opportunities to collaborate at scale for the greatest impact. If we are to level up – for the good of our region and our country – we must see concerted investment and long-term commitments from government, working in partnership with our region."

Sir John Peace, Chairman, Midlands Engine

“The Midlands Engine partnership is built on the insight, expertise and commitment of all of our partners. We bring together an extended network of collaborators from across business, local authorities, local enterprise partnerships, NHS trusts, public sector and charity bodies and universities. Here is a snapshot of just a few of the many organisations in our partnership; partners we connect with, collaborate with and who invest together with us, in our region, to achieve our shared aims for regional success.

"The Midlands has delivered so much for the UK. Our region is the birthplace of the Industrial Revolution; the largest regional economy outside London and home to almost 11 million people. But over time we have been consistently overlooked and undervalued – meaning our true economic potential is not being realised. The Midlands Engine partnership works to drive positive change and growth, aligning efforts and identifying opportunities to collaborate at scale for the greatest impact. If we are to level up – for the good of our region and our country – we must see concerted investment and long-term commitments from government, working in partnership with our region."

Sir John Peace, Chairman, Midlands Engine

"The places where we’ve grown up, the places that we love, the places where our families live - these are the places that we want to see succeed. That has been the principle behind the Midlands Engine. That’s the approach that we’re taking to levelling up."

Rt Hon Michael Gove MP, Secretary of State for Levelling Up, Housing and Communities

The Midlands Engine is an influential pan-regional partnership, focused on operating at scale across the whole Midlands geography to tackle what really matters in our region. Together with our partners and government, we work to identify and capitalise on the major economic opportunities in our region. We stand in a unique space - connecting our region’s businesses, parliamentarians, local authorities, academics and more, through our shared goal of greater prosperity - for every part of our region.

Our actions in partnership mean we are delivering real, measurable benefits for the communities we serve and in which we live. We are driving benefits in our economy too - because we view the big picture, convening, connecting and acting as a focal point to help drive economic growth.

In true collaboration, we identify and act on the opportunities which have best potential to enable economic growth, at pace. As our partnership continues to grow in strength and in scale, there is a genuine collective commitment to maximise our momentum as we support government ambitions to level up Midlands communities and our economy, for the greater benefit of our people, our places and our businesses.

"Levelling up means closing the productivity gap, driving growth, prosperity for our communities and social mobility. It means tackling deprivation hot spots and creating opportunities for today’s and future generations."

Sarah Middleton, CEO Black Country Consortium & Chair, Midlands Engine Observatory Board

"The Midlands Engine APPG plays a crucial cross-party role in supporting economic growth in the Midlands - working together with the Midlands Engine partnership. This group provides a forum for Midlands MPs and peers to receive crucial data and analysis of the economic performance of our region, and for parliamentarians to collectively raise the issues which matter most in delivering economic growth for the Midlands Engine."

Darren Henry, MP for Broxtowe and Co-Chair of Midlands Engine APPG

"Levelling up means closing the productivity gap, driving growth, prosperity for our communities and social mobility. It means tackling deprivation hot spots and creating opportunities for today’s and future generations."

Sarah Middleton, CEO Black Country Consortium & Chair, Midlands Engine Observatory Board
### IMPACT THROUGH PARTNERSHIP - KEY MILESTONES

#### 2020

- Supporting workplace wellbeing & increasing productivity
- Mental Health & Productivity
- Mental Health and Productivity Pilot enters second year
- Unlocking new era of green growth to supercharge the economy
- East Midlands Development Corporation business case made
- Mobilising our regional parliamentary voice
- Midlands Engine APPG established
- Evidencing regional opportunities & barriers to growth
- First ever Midlands Engine Independent Economic Review published
- Showcasing £17.6bn exceptional investment opportunities to the world
- Midlands UK Forum for Growth convened
- Championing our world-leading strengths in health & life sciences
- Midlands Engine Health partnership established

#### 2021

- Celebrating a £26 billion regional sector strength
- First ever Midlands Health & Life Sciences Symposium convened
- Collaborating to pinpoint digital investment with the UK’s first pan regional connected map
- Digital connected map published and deployed
- Supporting growth with Midlands-specific intelligence, evidence & insights

- Driving positive impact for our partnership and region
- Digital, Health and Global Opportunities Portfolio completed and mobilised
- Highlighting priority capital investment opportunities for the Midlands
- Midlands Engine Investment Portfolio spotlights partner-led investment opportunities
- Championing new models of finance to unlock green sector funding
- Driving innovation in the Green Finance landscape at our Summit

#### and in 2022 we are...

- Championing new models of finance to unlock green sector funding
- Driving innovation in the Green Finance landscape at our Summit

Working together in partnership, we achieve the greatest impact and bring benefit to every part of the Midlands Engine.
**LEVELLING UP THE MIDLANDS ENGINE**

**Seizing the moment**
The Midlands Engine’s founding principles speak to the power of partnership. Working together across the public and private sectors, we work at scale, unlocking economic growth that will bring benefits to every part of our region, and tackling challenges that are too big to be addressed alone.

We create and convene environments where public sector partners and businesses can collaborate and coordinate action, guided by a shared evidence base built by our Observatory. Through our work we have demonstrated the importance of a place perspective in helping to secure aligned, accelerated investment and in shaping and delivering regionally relevant government policy.

The Levelling Up White Paper puts narrowing spatial disparities at the centre of every government department’s priorities. It shows commitment to ‘systemic’ economic disparities at the centre of every government department’s priorities. It shows commitment to ‘systemic’ economic disparities at the centre of every government department’s priorities.

The Midlands Engine Business Forum puts narrowing spatial disparities at the centre of every government department’s priorities. It shows commitment to ‘systemic’ economic disparities at the centre of every government department’s priorities.

**IN PARTNERSHIP, WE...**

**champion our region...**

Our unified voice raises our regional profile and showcases our many strengths, across the UK and internationally.

**achieve more through strong links with our region’s dynamic businesses...**

Our work, with major multinational businesses, an innovative community of SMEs and the Midlands Engine Business Council embeds the voice of industry in our work.

**convene regional champions who activate opportunity – at scale and with pace...**

Spanning the entire Midlands geography, we work across sectors and organisational boundaries in true pan-regional collaboration, adding value.

**have built a regional Observatory to support regional policy shaping and decision making...**

Unique in England, our Observatory is a collaboration of top regional academics and researchers, working to maintain a robust, up-to-the-minute and interactive Midlands evidence base that will be crucial as we measure levelling up progress.

**£82 billion**

Significant and growing productivity

**£246 billion**

11 million diverse population, more people than Scotland, Wales & N.Ireland combined

**£246 billion**

Economy contributing significantly to the UK

---

**REGIONAL COLLABORATION IN ACTION**

**300 regional organisations collaborate to drive green growth**

Our industry-led Ten Point Plan is the first time a unified vision has been proposed to deliver a greener future for Midlands communities, in support of government plans for a Green Industrial Revolution. It is being driven forward by over 300 regional partners, including Browns Jacobson, Siemens Energy, Alstom, Barclays Bank, Energy Research Accelerator, local enterprise partnerships, National Trust, Cadent Gas, and Woodland Trust. Our actions together have the potential to deliver a 36% reduction in CO2 emissions, 196,000 high-value, high-skill jobs and a further £24.2 billion for our region’s economy.

---

**Regional investment could deliver 360k jobs**

Working with partners, we have developed an exceptional Midlands Investment Portfolio, setting out partner priority capital investment opportunities, highlighting future FDI clusters and featuring pan-regional sectoral strengths in green growth, digital, health and life sciences. Underpinned by data from our Observatory, it will be launched in April 2022 and available through the Midlands Engine website.

Showing a pipeline of over 170 inward investment opportunities and representing over £40.2bn GDV, securing this investment has the potential to deliver over 350,000 Midlands jobs.

---

**The UK’s most comprehensive digital connected map**

For the first time, we have a full understanding of regional connectivity thanks to the Midlands Engine digital connected map. Working together with mobile operators, local authority partners, Ordnance Survey, universities and our partners, we have developed this game-changing asset. It is a comprehensive record of public assets, broadband, 4G, 5G and fibre + gigabit connections, providing an invaluable picture of current coverage and where services are needed most - to target investment that can accelerate connectivity in the Midlands and drive regional economic prosperity.

---

**Symposium to drive growth in £26bn health & life sciences sector**

This signature event was sponsored by Midlands Engine Health, an initiative led by regional partners including the MTFI, Confederation of UK Industry, NHS Confederation, NIHR and Greater Lincs LEP. Partners, Medlink Midlands and MI Health convened academic, industry and clinical experts to showcase Midlands strengths and expertise in health. The event, the first of its type, strengthened networks and highlighted our unique regional capabilities, as we work to grow and accelerate the Midlands life sciences, MedTech and health sector, a phenomenal UK asset as we tackle health inequalities.

---

**“The Midlands is home to one sixth of the UK population, more than Scotland, Wales and Northern Ireland combined, and delivers an economic output of £264bn - significant strategic importance within the UK. Our location, right at the heart of the nation, is within just 4 hours reach of more than 90% of the UK population.”**

Dr Luke Evans, MP for Hinckley & Bosworth, Midlands Engine APPG, Chair of Health sub-group
Our Midlands Engine Partnership

The Midlands Engine is a coalition of Councils, Combined Authorities, Local Enterprise Partnerships (LEP), Universities and businesses across the region, actively working with Government to build a collective identity, to enable us to present the Midlands as a competitive and compelling offer that is attractive at home and overseas. Copyright © 2022 The Midlands Engine, All rights reserved.

Our Partnership - The Midlands Engine is the largest regional economy in the UK outside London and the place that 11 million people call home. Our Midlands Engine Partnership spans the heart of the UK. Working at scale, we focus on adding value - tackling the things that really matter in our region to drive prosperity for our communities and businesses.

Our Impact - Together, we make sure the Midlands voice is heard and act as a positive agent for economic, social and environmental change, to benefit every single part of our region. We do this through shared intent, collaborative investment and a unified voice, direct to Government.
